Projects

Clout - dakotacorbin.com/CloutFitnessApp

-Ionic application consisting of the full MEAN stack. Clout is a fitness app that gives users the ability to create and run workouts that are completely created by them. The project was completed in two weeks.

Hypothetical Barbershop - hypotheticalbarbershop.herokuapp.com

-Full MEAN stack website/application consisting of a landing page and appointment-scheduling app for a fake barbershop. The project was completed in two weeks.

Experience

Vivint Solar – *Maryland Interconnection Team Lead*

(February 2014 – August 2015)

-Lead a team of 8+ members to being the top team on the east coast in all aspects of interconnection. The team met every goal set for them by executives under my leadership.

Street Social – *Social Media Marketing*

(October 2014 – February 2015)

-Managed and curated content for 3-5 social media accounts for local businesses. Social media platforms consisted of Facebook, Twitter, Instagram, Pinterest, and Google Plus.

Education

DevMountain – www.devmountain.com

(August 2015 – January 2016)

-Full MEAN Stack Development

Utah Valley University – www.uvu.edu

(June 2013 – June 2015)

-General Education Requirements
